

USING WITH SONY ERICSSON P800

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. On the Applications window (flip open mode), scroll and tap *Control Panel* using the stylus. Go to *Connections*. Tap *Bluetooth*. Go to **Settings**. On the *Operation mode*, tap *Discoverable*.
2. Tap  to exit and return to the Applications window.

b. PAIRING TO THE CELLULAR PHONE

1. Bring the cellular phone at about 20 cm from the headset.
2. Detach the headset from the holster/base.
3. Turn off the headset.
4. From the OFF state, press the multi-function button for 10 seconds or until a distinctive three-tone sound will be heard and at the same time the red and blue indicator will alternately blink. This indicates that the unit is now ready for pairing.
5. On the Applications window (flip open mode), scroll and tap *Control Panel*. Go to *Connections*. Tap *Bluetooth*. Bluetooth devices is displayed as sub-title. Tap **Add**. The phone is now searching for pairable devices.
6. Tap the device you want to pair with. *Bonding in progress* will be displayed on screen. The phone will then ask for the pass key.
7. Tap  on the lower left corner of the screen. Enter "0000" as the passkey and tap **Done**. Tap **Done** under the sub-title, "Secure Connection." If the pairing is successful, the alternating red/blue lights will stop.
8. Tap  to exit and return to the Applications mode. If the pairing is unsuccessful, the steps above may be repeated.

The unit is now ready to link calls from the phone directly to the headset. An icon will appear during the standby mode indicating that the headset is linked with the phone.

c. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, a ring tone will be heard on the headset.

1. Just press the multi-function button down once to answer the call. Pressing the button again will hang-up and terminate the call.
2. If you wish to answer a call on the cellular phone, just press **YES** and the call is automatically transferred to the phone. Pressing the multi-function button transfers the call on the headset.

To terminate the call, press the multi-function button again.

d. MAKING A CALL with the headset on

▼ **Normal dialing**

1. Enter the contact number and press **OK**. Sound is automatically transferred to the headset.
2. Press the multi-function button to hang-up and terminate the call.

▼ **Voice dialing**

Refer to step f and g for the procedure when activating and recording for voice dialing.

1. Press the multi-function button once to activate the voice dialing. Sound is automatically transferred to the headset.
2. A beep will then be heard on the headset prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
4. Press the button again to terminate the call.

e. **ACTIVATING THE VOICE DIALING**

Use your phone when recording for the voice dialing. Before voice dialing, you must first turn on the name dialing function and record your voice. To turn voice dialing on:

1. On the Applications window (flip open mode), tap *Phone*.
2. Tap *Edit* then tap *Preferences*. A list of features will appear.
3. Tap *Voice Control* then tap the box aligned to *Voice dialing* to check and activate the voice dialing feature. Tap the box aligned to *Play caller name* so that the name will be played back to you.
4. Tap **Done** on the on screen button when finished.
5. On the Preferences mode, tap **Done** again.
6. Tap  exit and return to the Applications mode.

f. **RECORDING FOR VOICE DIALING**

The voice dialing feature is only applicable to contacts saved to phone memory.

1. On the Applications window (flip open mode), tap *Contacts*.
2. Tap the contact where you want to add a voice dialing feature. Tap **Edit**. Scroll to **Edit Contact**. Tap  on the on-screen buttons.
3. Tap **Record**. *Speak after tone* will be displayed on the screen.
4. Record your voice. To check if your recording is of good quality, tap **Play**. If not, tap **Record** again. Press **Done** when finished.
5. Tap  to make another record and repeat the steps above. To return to the Applications window, tap  button.

Note: Noisy environment may affect voice recognition. Record your voice in a quiet environment.
