

USING WITH MOTOROLA V80

a. ACTIVATING THE BLUETOOTH

You must activate the Bluetooth feature of your cell phone to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Press the joystick  to access Menu. Scroll to **Settings**, SELECT. Choose **Connection**, SELECT. **Bluetooth Link**, SELECT.
2. Scroll to **Setup**, SELECT. Scroll to **Power**, CHANGE. Choose **ON**, SELECT.
3. Continue pressing **Back** to exit.

b. PAIRING TO THE CELLULAR PHONE

Pairing will create a link or connection between your two Bluetooth devices, the Headset and your phone.

1. Bring the cellular phone at about 20 cm from the Headset.
2. Detach the Headset from the holster/base.
3. Ensure that the Headset is turned off (see *B. Turning On/Off the Headset*).
4. From the OFF state, press the multi-function button for 10 seconds until you hear a distinctive three-tone sound and the Bluetooth indicator LED changes from blinking blue to alternate blinking of red and blue. This indicates that the unit is now ready for pairing.
5. Press the joystick  to access Menu. Scroll to **Settings**, SELECT. Choose **Connection**, SELECT. **Bluetooth Link**, SELECT.
6. Choose **Hands-free**, SELECT. [**Look for devices**], SELECT. The phone will then scan the device to be added.
7. On the scan results, choose the name of this Headset, **SELECT**. A question “Bond with ... (device name)?” appears. Press **YES**.
8. Enter Bluetooth passkey “0000” then press **ok**. If pairing is successful, a remark “**Connected to...**” appears. The phone exits automatically.

The Headset is paired and ready to use.

Notes:

- ➔ *You only have to do the pairing process once for a particular phone. You will only redo the process if you want to pair it with another mobile phone.*
- ➔ *If you turn off your Headset, it will disconnect with your phone. If you turn it back on, just press once on the multi-function button to reconnect.*
- ➔ *If you happen to delete the paired device and you wish to reconnect, just shortly press the multi-function button. A question, “Bond with...??” appears. Press **YES**, enter **0000** as Bluetooth passkey, and press **ok** to reconnect.*

c. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, the ring will simultaneously be heard on the phone and on the Headset.

1. Press the multi-function button once to answer the call.
2. To terminate the call, do the same, press once on the multi-function button.

d. MAKING A CALL with the Headset on

Normal dialing

1. Enter the contact number and press **Call key / Touch Sending key**. Audio will be heard on the Headset.
2. To terminate a call, press the multi-function button once.

Voice dialing

Refer to step h and i for the procedure when activating and recording for voice dialing.

1. Press the multi-function button once to activate voice dialing.
2. A beep will then be heard on the Headset prompting the user to say the name of the person to call.

3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
4. Press the multi-function button once to terminate the call.

Redialing

Press the multi-function button twice quickly to redial the last number.

e. **AUDIO TRANSFER**

Audio Transfer can be done during an ongoing call.

Headset initiates Audio Transfer to phone: Press twice quickly the multi-function button.

Headset initiates Audio Transfer back to Headset: Shortly press the multi-function button once.

Note: Using your phone for audio transfer, press  button of 5-way navigation key. On the Call Menu, scroll down to "Use Handset" or "Use Bluetooth" to transfer audio to phone or to the kit.

f. **REJECTING A CALL**

Press the multi-function button twice quickly to reject the incoming call.

g. **SETTING THE VOLUME**

The Headset has a digital volume control which can be accessed through the *multi-function button*. Volume setting can be done during calls only.

1. Switch the multi-function button sideways in a forward direction to increase the volume.
2. Switch it backward to decrease the volume.

Note: It is also possible to use the volume keys of the cellular phone to set the volume.

h. **ACTIVATING THE VOICE DIALING**

Use your phone when recording for the voice dialing. Before voice dialing, you must first turn on the *Voice Dial* function and record your voice. To turn voice dialing on:

1. Press the joystick  to access Menu. Scroll to **Settings**, SELECT. Scroll to **Headset**, SELECT.
2. Choose **Voice Dial**, CHANGE. Choose **ON**, SELECT.
3. Continue pressing **Back** to exit.

i. **RECORDING FOR VOICE DIALING**

Note: Voice dialing entries must be stored in the phone's memory (not on the SIM card!).

1. Press the joystick  to access Menu. Scroll to **Phonebook**, SELECT.
2. Choose a contact which you want to make a *voice dial*, press **VIEW** then **EDIT**.
3. On the *Entry Details* window, scroll to "**Store To:** _____", press CHANGE. Choose **Phone**, SELECT. (This is storing the number to phone memory).
4. Scroll to "**Voice Name:** _____" then press **RECORD**. Follow instructions on the screen.
Note: If recording is successful, an icon will appear next to Voice Name.
5. Press **DONE**.

Notes: 1. The recorded voice will be played back to you.

2. In the listed names of your Phonebook, an icon appears next to a name which has a "Voice Name". This indicates that you can contact this person via "voice dial".

3. Noisy environment could affect voice recognition. Record in a quiet environment.
