

## USING WITH NOKIA 6310i

### ACTIVATING THE BLUETOOTH

You must activate the Bluetooth feature of your phone to be able to establish a Bluetooth connection between your phone and your SuperTooth II kit as well as with other Bluetooth devices.

1. Press **Menu > Bluetooth** (*Bluetooth* *off* is highlighted) > Select **On**.
2. Press **Exit** or **Back** as many times as needed to return to standby mode.

### PAIRING TO THE CELLULAR PHONE (Not possible while charging the SuperTooth II)

Pairing will create a link or connection between the two Bluetooth devices - the SuperTooth II kit and your phone.

1. This SuperTooth II kit supports either **Handsfree** or **Headset** pairing mode. First, refer to **Compatibility Table** for suggested pairing modes to be able to determine what pairing mode is best for your phone. **Handsfree** and **Headset** profile differs in pairing procedure. (*Note: In the Compatibility Table, you can find that Nokia 6310i belongs to Handsfree Profile.*) Proceed with the instructions.
2. Bring the mobile phone at about 20cm from SuperTooth II.
3. The SuperTooth II is initially off. Turn it on by flipping up the **Swivel Arm(1)** to 55° position. The **Bluetooth Indicator(9)** will glow (*blue blink*).
4. Simultaneously press the **Reject Button(2)** and **Pick-Up/Hang-Up Button(7)** for about 10seconds. A distinctive tone will be heard and the Bluetooth Indicator LED will change from blinking blue to alternate blinking red and blue. SuperTooth II is now in **Handsfree Pairing Mode**.
5. While the kit is at pairing mode, access the Bluetooth menu of your phone. Press **Menu > Bluetooth** (*Bluetooth* *on* is highlighted).
6. Scroll down to "**Search for audio accessories**".  
The phone will then search for pairable devices until it displays them in the list.
7. Choose the name of this kit and press **Select**.
8. When the phone asks for a passcode, enter "**0000**" then press **Ok**. ("*Pairing with SuperT... "and "Connected to SuperT..."*" will be briefly shown.)
9. Press **Exit** or **Back** as many times as needed to return to standby mode.

### AUTO ACCEPT MODE

When the SuperTooth is turned off, its link with the phone is disconnected. This auto accept mode procedure is recommended to allow automatic reconnections (*between SuperTooth II and your phone*) the moment the kit is turned back on.

1. Press **Menu > Bluetooth** (*Bluetooth* *on* is highlighted).
2. Scroll down to **View paired devices** > then choose the name of this kit > press **Options** > then scroll down to **Request conn. authorisation** then select **No**.
3. Press **Exit** or **Back** as many times as needed to return to standby mode.

### ANSWERING / ENDING A CALL

When you receive a call, ring tone will be heard simultaneously on SuperTooth II and on the phone or on the SuperTooth II only (*depending on your phone model*).

1. Just shortly press **Pick-Up/Hang-Up Button(7)** to answer the call.
2. When communication is over, press the **Pick-Up/Hang-Up Button(7)** to terminate the call.

### MAKING A CALL

#### Normal dialing

Enter the contact number and send. Normally, audio will be on the kit.

**Note: With some phones like Siemens S55; Panasonic X70, audio is always on the phone during an outgoing call. You will need to press Pick-Up/Hang-Up Button(7) to transfer the audio to your kit. (Also, refer to "Compatibility Table" for other helpful remarks.)**

#### Voice dialing

**Note: Voice dialing entries must be stored in the phone's memory (not on the SIM card!).**

1. First, you have to record for a "*voice command*" or "*voice tag*" in your phone. Record your voice command in a quiet place so that only your voice will be recorded on the phone.

2. **Recording for voice dialing:** Press **Names > Search**.
3. Choose the name which you want to make a voice dial then press **Details > Options > Add voice tag**. Follow the instructions that will be displayed.  
The voice will be played back to you then it will be saved by the phone.
4. Press **Back** or **Exit** as many times as needed to return to standby mode.

When recording is done, execute voice dialling on your kit by proceeding with the instructions.

5. Shortly press **Pick-Up/Hang-Up Button(7)**.
6. A beep will then be heard on the SuperTooth II prompting the user to say a voice name or voice tag of a contact to call.
7. Say the name. The name will be played back to you (audio on kit). The phone will then place the call automatically.

### REDIALING (Handsfree profile only)

Make a long press on the **Pick-Up/Hang-Up Button(7)**. Audio will be on the SuperTooth II.

### AUDIO TRANSFER

#### Kit to Phone

Flip down the **Swivel Arm (1)** to 0° position (or turn-off the unit). This will automatically transfer the audio from the kit to the phone.

#### Phone to Kit

For Nokia Phones:

Flip up the **Swivel Arm** from 0° to 55° or 210° positions. (or turn-on the unit). This will automatically transfer the audio from phone to kit.

For Other Phone Models:

Flip the **Swivel Arm** up from 0° to 55° or 210° positions (or turn-on the unit).

Then press shortly the **Pick-Up/Hang-Up Button(7)**. The audio will be transferred from the phone to the kit.

### REJECTING A CALL (Handsfree Profile only)

Press **Reject Button(2)** to reject an incoming call.

### SETTING THE VOLUME

Set the volume using the **Volume Control(11)**.

1. Turn it clockwise to increase the volume.
2. Turn it counter clockwise to decrease.

*Note: If the volume set is too high, it can cause feedback (whistling sound), echo, or background noise during calls on some cell phones.*
