

USING WITH SONY ERICSSON Z600

ACTIVATING THE BLUETOOTH

You must activate the Bluetooth feature of your phone to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Press **Menu key** (☺) and select **Connectivity > Bluetooth > Turn on**. ("Bluetooth is turned on" will be briefly shown.)
2. Press **⏏** as many times as needed to return to standby mode.

PAIRING TO THE CELLULAR PHONE (Not possible while charging the SuperTooth II)

Pairing will create a link or connection between your two Bluetooth devices - the SuperTooth II kit and your phone.

1. This SuperTooth II kit supports either **Handsfree** or **Headset** pairing mode. First, refer to **Compatibility Table** for suggested pairing modes to be able to determine what pairing mode is best for your phone. **Handsfree** and **Headset** profile differs in pairing procedure. (*Note: In the Compatibility Table, you can find that Sony Ericsson Z600 belongs to Handsfree Profile.*) Proceed with the instructions.
2. Bring the mobile phone at about 20cm from SuperTooth II.
3. The SuperTooth II is initially off. Turn it on by flipping up the **Swivel Arm(1)** to 55° position. The **Bluetooth Indicator(9)** will glow (*blue blink*).
4. Simultaneously press the **Reject Button (2)** and **Pick-Up/Hang-Up Button (7)** for about 10seconds. A distinctive tone will be heard and the Bluetooth Indicator LED will change from blinking blue to alternate blinking red and blue. SuperTooth II is now in **Handsfree Pairing Mode**.
5. While the kit is at pairing mode, access the Bluetooth menu of your phone. Press **Menu** (☺) and select **Connectivity > Bluetooth > My Devices > New Device**. The phone will then start to search for pairable devices until it displays them in the list.
6. Among the names in the list, select *SuperTooth II*, enter **0000** as the passkey then press **Ok**.
Normally, the phone would show briefly on its display if it's already paired and connected to the SuperTooth II or if pairing with it failed.
7. Pairing has been successful if the alternating red/blue lights of **Bluetooth Indicator** now have changed to plain blinking blue. Press **⏏** as many times as needed to return to standby mode.

The SuperTooth II is now ready to use.

ANSWERING / ENDING A CALL

When you receive a call, ring tone will be heard simultaneously on the SuperTooth II and on the phone or on the SuperTooth II only (*depending on your phone model*).

1. Just shortly press **Pick-Up/Hang-Up Button(7)** to answer the call.
2. When communication is over, press the **Pick-Up/Hang-Up Button(7)** to terminate the call.

MAKING A CALL

Normal dialing

Dial the number using your phone. Audio will be on the SuperTooth II.

Note: With some phones like Siemens S55; Panasonic X70, audio is always on the phone during an outgoing call. You will need to press Pick-Up/Hang-Up Button(7) to transfer the audio to your kit. (Also, refer to "Compatibility Table" for other helpful remarks.)

Voice dialing

Note: Voice dialing entries must be stored in the phone's memory (not on the SIM card!).

1. **Activate the Voice Dial Function:** Before voice dialing, you must first activate the *voice dialing* function of your cell phone and record a voice command for a particular contact. *Record your voice in a quiet place.*
2. Press **Menu key** (☺) and select **Settings > Voice control > Voice dialing > Choose On**.
3. Press **⏏** as many times as needed to return to standby mode.
4. **Record for Voice Dial:** Press **Menu key** (☺) and select **Settings > Voice control > Voice dialing > Edit names > New voice > ok**.
5. Find a contact and press **Select**.

6. Follow the instructions on the phone. When your voice is caught by the phone, it will let you to listen to your recording and will ask the question, "**Is it ok?**".
7. As soon as you press **Yes** as reply, "*Voice command saved*" will be briefly shown. Under Voice Commands tab, a callout icon **!** will appear next to a contact name which has a voice command.
8. Press **⏏** as many times as needed to return to standby mode.
9. **Execute Voice dial:** Short press **Pick-Up/Hang-Up Button**.
10. A beep will then be heard on the SuperTooth II prompting the user to say a **voice command**.
11. Say a **voice command**. The voice will be played back to you (audio on kit) then the phone will place the call automatically.

AUDIO TRANSFER

Kit to Phone

Flip down the **Swivel Arm (1)** to 0° position (or turn-off the unit). This will automatically transfer the audio from the kit to the phone.

Phone to Kit

For Nokia Phones:

Flip up the **Swivel Arm** from 0° to 55° or 210° positions. (or turn-on the unit). This will automatically transfer the audio from phone to kit.

For Other Phone Models:

Flip the Swivel Arm up from 0° to 55° or 210° positions (or turn-on the unit).

Then press shortly the **Pick-Up/Hang-Up Button(7)**. The audio will be transferred from the phone to the kit.

SETTING THE VOLUME

Set the volume using the **Volume Control(11)**.

1. Turn it clockwise to increase the volume.
2. Turn it counter clockwise to decrease.

Note: If the volume set is too high, it can cause feedback (whistling sound), echo, or background noise during calls on some cell phones.
