Version 3.5

OVERVIEW

This unit uses Bluetooth technology that allows wireless communications on devices such as cellular phones. This is designed to be a totally wireless hands-free car kit or a stand-alone wireless Headset. This provides the user to operate a cellular phone inside the car while driving and can also be used anywhere by detaching the earpiece and becomes a stand-alone Bluetooth Headset. The unit will work on all Bluetooth cellular phones provided that they respect the Bluetooth protocol.

A. ILLUSTRATIONS

- 1 – Magnet
- 2 – Charging Pins
- 3 – Charge/Power Indicator
- 4 – Line Pick-up Button
- 5 – Cigarette Lighter Plug
- 6 – Main Speaker
- 7 – Ear Hook
- 8 – Multi-Function Button (Talk/Power/Volume)
- 9 – Microphone / Indicator lights
- 10 – Speaker Volume
- 11 – Earphone

B. TURNING ON/OFF THE UNIT

There are two ways to turn ON/OFF the unit depending on how it is being used. When used as a hands-free car kit, plugging it in the cigarette lighter plug(5) activates the unit. When used as Headset, follow the steps below:

1. Press the multi-function button for 2 seconds. A low-high tone will then be heard and a blue light will show.
2. Release the button and the indicator light will blink. The Headset is now ready and is waiting for a call (standby mode). (Note: If the indicator becomes red, it means that the battery on the headset is low. Re-charge it immediately by putting it back to the main unit.)
3. Turn the Headset OFF by pressing the multi-function button for more than 4 seconds or more depending on the phone. A high-low tone will then be heard and the indicator light becomes red then turns off after a few seconds.
4. Wait at least 4 seconds before turning the Headset ON again.

REMARK:

When the cell phone is not detected for more than 5 minutes, if used as a stand-alone Headset or docked and no power from the Cigarette lighter plug, it will turn off automatically, thus, conserve battery life.

C. OPERATIONS

Before use, the Headset must be paired with the phone. Pairing is done only once. After being paired, the phone and the Headset will automatically be connected anytime the phone is used. (Please see "**Headset Operations for Popular Cell Phones**" on page 4 for the instructions).

D. INSTALLING THE MICROPHONE

- Put two (2) "AAA" Alkaline batteries in the wireless microphone. The negative polarity of the batteries must be in the spring side.
Note: Microphone battery life is more than 500 calls (if 3 calls/day, battery life = more than 5 months).
- It is highly recommended that you attach your microphone to the sun visor. Please make sure that it does not hide the microphone otherwise, your voice will be attenuated.
- Turn "ON" the microphone by using the power switch.

REMARKS:

- § If microphone is not in "ON" position during communication, the sound on the speaker will be attenuated.
- § In standby mode, the microphone will still have a small consumption (less the 1.8 microwatts).
- § On some versions, the indicator light will only turn ON for 2 seconds after the microphone is switched ON. *Note: If the light is red, this indicates low battery.*
- § The microphone is activated by the Hands-Free Kit base and can remain in "ON" position even if not used. But in order to extend battery life, it is recommended that you switch "OFF" your microphone when you won't use it for a long time.

E. FUNCTION CONTROLS

Adjust the Function Controls as recommended:

- Tone Control**
"H" for High Tone
"L" for Low Tone.
- ASP Control**
ON = Echo and Feedback Canceller
OFF = Echo Reducer only
- Adjustable Microphone Gain (MIC) Control**
"H" for high gain; "L" for low gain.
"L" is necessary in noisy background.

Control Switches

The Microphone gain must be adjusted to match with your cell phone model. If the gain is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.

Recommended Function Controls Setting (Working on all models):		
MIC	=	L
ASP	=	ON
TONE	=	H

Note:
On high background environment, if you experience audio level fluctuation, turn ASP "OFF".

F. SETTING THE VOLUME

There are two volume controls on the unit. One is on the main unit which is the *speaker volume* (10) and controls only the *main speaker* (6). The other is on the Headset which is the *multi-function button* (8) and sets both the *earphone* (11) and the *main speaker* (6).

The Headset's Volume Control is digital and can be accessed through the *multi-function button* (8). Switching it sideways in a clockwise direction increases the volume. Counter-clockwise switching decreases the volume. Continuous sideward switching of the digital volume control can rapidly set the volume. (Please refer to the "**Headset Operations for Popular Cell Phones**" on page 4 for additional information).

During a communication, pick-up the earphone and adjust its *volume* (8). Replace the earphone on the base and adjust the *speaker volume* (10).

If the volume is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.

G. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, the phone ring tone will be heard on the hands-free kit or on the Headset. Just do one press on button(4) of the main unit, or one press on button(8) of the Headset to answer the call. Pressing the button once again will hang-up and terminate the call. (Please refer to the "**Headset Operations for Popular Cell Phones**" on page 4 for additional information.)

H. MAKING A CALL

Calling through the hands-free kit can be done using voice tags. (Please refer to "**Headset Operations for Popular Cell Phones**" starting page 4 for saving and activating voice tags). The steps are:

1. Press once on the *line pick-up button*(4) on the main unit or press once on the multi-function button(8) to activate the voice dialing.
2. A beep will then be heard prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you.
4. The phone will then place the call automatically. In case the phone does not recognize the name spoken, the steps above may be repeated.
5. Press the button again to terminate the call.

If the desired number to be dialed has no voice tag, normal dialing can also be done using the keypad of your phone. (Please refer to "**Headset Operations for Popular Cell Phones**" starting page 4 for additional information.)

Important Remarks:

- On some versions of Nokia's software, the Headset/Car Kit will not connect automatically to the cell phone. You will need to do one press on the *multi-function button*(8) to connect it to the cell phone.
- If disconnection problem will be encountered on some Nokia cell phones, kindly turn off the keypad tone of your cell phone.

FCC Notices

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC RF Exposure requirements:

"This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter."

HEADSET OPERATIONS FOR POPULAR CELL PHONES

Note 1: If your phone is not included on the following list of this manual, kindly refer to the manual of your phone.

Note 2: Softwares and menus could be modified by the cell phone's manufacturers without prior notice. If the manual does not match with your cell phone operations, kindly refer to the manual of your cell phone.

Note 3: **Multi-pairing is now possible.**

Note 1: Handsfree Pairing Mode

- From the OFF state, press the multi-function button for 10 seconds or until a distinctive three-tone sound will be heard and at the same time the red and blue indicator will alternately blink.

Note 2: Headset Pairing Mode

- From the OFF state, press the multi-function button for 10 seconds or until a distinctive three-tone sound will be heard and at the same time the red and blue indicator will alternately blink.
- Press the multi-function button again for a short time to access Headset Pairing Mode.

USING WITH SONY ERICSSON T68/T68i

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Go the Menu Key by pressing the joystick. Scroll to *Connect*, **YES**. Select *Bluetooth*, **YES**. Select *Options*, **YES**. *Operation mode*, **YES**. *On*, **YES**.
2. Continue pressing **NO**, to exit.

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Connect	Blue tooth	Options	Operation mode
T68	8	3	-	2
T68i	8	4 (or 3 for T68i R7)	4	1

b. PAIRING TO THE CELLULAR PHONE

1. Bring the cellular phone at about 20 cm from the Headset.
2. Detach the Headset from the holster/base.
3. Turn off the Headset.

4. From the OFF state, press the multi-function button for 10 seconds until you hear a distinctive three-tone sound and the Bluetooth indicator LED changes from blinking blue to alternately blinking red and blue. This indicates that the unit is now ready for pairing.
5. **For T68 and T68i older versions, R6 and below, press the multi-function button once again for a short time, to access Headset Pairing Mode.**
6. Go the Menu Key by pressing the joystick. Scroll to *Connect*, **YES**. Select *Bluetooth*, **YES**.
7. Select *Paired devices*, **YES**. Add *device*, **YES**. Choose *Phone initiates*, **YES**. Choose *Headset/Handsfree*, **YES**. The phone will then search the device to be added. After the device is found, press **YES**.

QUICK ACCESS (for steps 5 and 6):

Press *Menu* then follow the sequence of numbers below:

	Connect	Blue tooth	Paired devices	Add device	Phone initiates	Headset/ Handsfree
T68	8	3	2	Yes	1	2
T68i	8	4 (or 3 for T68i R7)	2	Yes	1	2

8. Enter "0000" as the passkey. If the pairing is successful, the alternating red/blue lights will stop. Press **YES** to confirm the name of the device. If the pairing is unsuccessful, the steps above may be repeated.
 9. Continue pressing **NO** to exit the menu key.
- The unit is now ready to link calls from the phone directly to the Headset. An icon, will appear during the standby mode indicating that the Headset is linked with the phone.

c. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, a ring tone will be heard on the Headset.

1. Just press the multi-function button down once to answer the call. Pressing the button again will hang-up and terminate the call.
2. If you wish to answer a call on the cellular phone, just press **YES** and the call is automatically transferred to the phone. Pressing the multi-function button transfers the call on the Headset. To terminate the call, press the multi-function button again.

d. MAKING A CALL with the Headset on

Normal dialing

1. Enter the contact number and press **YES**. Audio can be heard on the Headset at the same time, a question will be displayed, "*Retrieve call in phone?*" Ignoring or pressing *No*, transfers the call to the Headset. Pressing *Yes*, transfers the call to the cell phone.
2. Press the multi-function button to hang-up and terminate the call.

Voice dialing

Refer to step h and i for the procedure when activating and recording for voice dialing.

1. Press the multi-function button once to activate the voice dialing.
2. A beep will then be heard on the Headset prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
4. Press the button again to terminate the call.

Redialing

For T68i R6 and R7, press quickly the multi-function button twice. Call is automatically transferred on the Headset.

e. AUDIO TRANSFER

Audio Transfer can be done by pressing the multi-function button or accessing the cell phone's menu during ongoing calls.

f. REJECTING A CALL

For T68i R6 and R7, press the multi-function button twice to reject the incoming call.

f. SETTING THE VOLUME

The Headset has a digital volume control which can be accessed through the *multi-function button*. Volume setting can be done during calls only.

1. Switch the multi-function button sideways in a clockwise direction to increase the volume.
2. Switch it counterclockwise to decrease the volume.

3. Continuous sideward switching of the multi-function button (*clockwise or counterclockwise*) can rapidly increase or decrease the volume. *If the volume set is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.*

Note: It is also possible to use the volume keys of the cellular phone to set the volume.

h. ACTIVATING THE VOICE DIALING

Use your phone when recording for the voice dialing. Before voice dialing, you must first turn on the name dialing function and record your voice. To turn voice dialing on and record number types:

Using T68 Sony Ericsson

1. Go to the Menu Key by pressing the joystick. Scroll to *Settings*, **YES**. *Voice control*, **YES**.
2. *Voice settings*, **YES**. *Voice dialing*, **YES**. Select *On*, **YES**.
3. Continue pressing **NO** to exit

Using T68i Sony Ericsson

1. Go to the Menu Key by pressing the joystick. Scroll to *Settings*, **YES**. *Voice control*, **YES**. *Voice dialing*, **YES**.
2. Select *On*, **YES**.
3. Continue pressing **NO** to exit

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Settings	Voice control	Voice settings	Voice dialing	On
T68	5	8	1	1	1
T68i	5	6	-	1	1

i. RECORDING FOR VOICE DIALING

Using T68 Sony Ericsson

1. Go to the *Menu Key* by pressing the joystick. Scroll to *Settings* and press **YES**. Choose *Voice control*, **YES**. *Voice Commands*, **YES**. Select a contact, **YES**. *Add voice*, **YES**.
2. Follow the instructions in the display. An icon will appear next to a contact name which has a voice command.
3. Continue pressing **NO** to exit.

Using T68i Sony Ericsson

1. Go to the *Menu Key* by pressing the joystick. Scroll to *Settings* and press **YES**. Choose *Voice control*, **YES** then go to *Voice dialing*, **YES**. *Edit name*, **YES**. *Add voice*, **YES**.
2. Select a contact, **YES**.
3. Follow the instructions in the display. An icon will appear next to a contact name which has a voice command.
4. Continue pressing **NO** to exit.

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Settings	Voice control	Voice commands	Contacts
T68	5	8	2	4
	Settings	Voice control	Voice dialing	Edit names
T68i	5	6	1	2

Note: Record your voice command in a quiet place so that only your voice will be recorded on the phone.

USING WITH SONY ERICSSON T39m

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Press the *Menu Key*. Scroll to *Extras* and press **YES**. Select *Operation mode*, **YES**. *On*, **YES**.
2. Continue pressing **NO**, to exit.

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Extras	Blue tooth	Operation mode
T39m	5	6	4

PAIRING TO THE CELLULAR PHONE

1. Bring the cellular phone at about 20 cm from the Headset.
2. Detach the Headset from the holster/base.
3. Turn off the Headset.
4. From the OFF state, press the multi-function button for 10 seconds until you hear a distinctive three-tone sound and the Bluetooth indicator LED changes from blinking blue to alternately blinking red and blue. This indicates that the unit is now ready for pairing.
5. **Press the multi-function button once again for a short time, to access Headset Pairing Mode.**
6. Press the *Menu Key*. Scroll to *Extras*, **YES**. Select *Bluetooth*, **YES**. Select *Paired devices*, **YES**. Add device, **YES**. Choose *Phone initiates*, **YES**. Choose *Headset*, **YES**. The phone will then search the device to be added. After the device is found, press **YES**.

QUICK ACCESS (for steps 5 and 6):

Press *Menu* then follow the sequence of numbers below:

	Extras	Blue tooth	Paired devices	Add device	Phone initiates	Headset
T39m	5	6	2	Yes	1	2

7. Enter "0000" as the passkey. If the pairing is successful, the alternating red/blue lights will stop. Press **YES** to confirm the name of the device. If the pairing is unsuccessful, the steps above may be repeated.
8. Continue pressing **NO** to exit the menu key.

The unit is now ready to link calls from the phone directly to the Headset.

c. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, a ring tone will be heard on the Headset.

1. Just press the multi-function button down once to answer the call. Pressing the button again will hang-up and terminate the call.
2. If you wish to answer a call on the cellular phone, just press **YES** and the call is automatically transferred to the phone. Pressing the multi-function button transfers the call on the Headset.
3. To terminate the call, press the multi-function button again.

d. MAKING A CALL with the Headset on**☛ Normal dialing**

1. Enter the contact number and press **YES**. Audio can be heard on the Headset and at the same time, a question will be displayed, "Retrieve call in phone?" Ignoring or pressing *No*, transfers the call to the headset. Pressing *Yes*, transfers the call to the cell phone.
2. Press the multi-function button to hang-up and terminate the call.

☛ Voice dialing

Refer to step g and h for the procedure when activating and recording for voice dialing.

1. Press the multi-function button once to activate the voice dialing.
2. A beep will then be heard on the Headset prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
4. Press the button again to terminate the call.

e. AUDIO TRANSFER

Audio Transfer can be done by pressing the multi-function button or accessing the cell phone's menu during ongoing calls.

f. SETTING THE VOLUME

The Headset has a digital volume control which can be accessed through the *multi-function button*. Volume setting can be done during calls only.

1. Switch the multi-function button sideways in a clockwise direction to increase the volume.
2. Switch it counterclockwise to decrease the volume.

- Continuous sideward switching of the multi-function button (*clockwise or counterclockwise*) can rapidly increase or decrease the volume. *If the volume set is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.*

g. ACTIVATING THE VOICE DIALING

Use your phone when recording for the voice dialing. Before voice dialing, you must first turn on the name dialing function and record your voice. To turn voice dialing on and record number types:

- Press the *Menu Key*. Scroll to *Settings*, **YES**. *Voice control*, **YES**.
- Voice settings*, **YES**. *Voice dialing*, **YES**. Select *On*, **YES**.
- Continue pressing **NO** to exit

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Settings	Voice control	Voice settings	Voice dialing	On
T39m	4	9	1	1	1

h. RECORDING FOR VOICE DIALING

- Press the *Menu Key*. Scroll to *Settings*, **YES**. *Voice control*, **YES**. *Voice Commands*, **YES**. Select *Contacts*, **YES**. *Add voice*, **YES**.
- Find a contact name and follow the instructions in the display. An icon will appear next to a contact name which has a voice command.
- Continue pressing **NO** to exit.

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Settings	Voice control	Voice commands	Contacts
T39m	4	9	2	4

Note: Noisy environment may affect voice recognition. Record your voice in a quiet environment.

USING WITH SONY ERICSSON P800 / P900

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

- On the Applications window (flip open mode), scroll and tap *Control Panel* using the stylus. Go to *Connections*. Tap *Bluetooth*. Go to **Settings**. On the *Operation mode*, tap *On*.
- Tap  to exit and return to the Applications window.

b. PAIRING TO THE CELLULAR PHONE

- Bring the cellular phone at about 20 cm from the Headset.
- Detach the Headset from the holster/base.
- Turn off the Headset.
- From the OFF state, press the multi-function button for 10 seconds until you hear a distinctive three-tone sound and the Bluetooth indicator LED changes from blinking blue to alternately blinking red and blue. This indicates that the unit is now ready for pairing.
- Press the multi-function button once again for a short time, to access Headset Pairing Mode.**
- On the Phone Applications window (flip open mode), scroll and tap *Control Panel*. Go to *Connections*. Tap *Bluetooth*. Tap the *Devices* index. *Bluetooth devices* is displayed as sub-title. Tap **Add**. The phone is now searching for pairable devices.
- Tap the device you want to pair with. "*Bonding in progress*" will be displayed on screen. The phone will then ask for the pass key.
- Tap  on the lower left corner of the screen. Enter "0000" as the passkey and tap **Done**. Tap **Done** under the sub-title, "Secure Connection." If the pairing is successful, the alternating red/blue lights will stop.
- Tap  to exit and return to the Applications mode. If the pairing is unsuccessful, the steps above may be repeated.

The unit is now ready to link calls from the phone directly to the Headset. An icon will appear during the standby mode indicating that the Headset is linked with the phone.

c. **ANSWERING/RECEIVING A CALL**

When the phone is receiving a call, a ring tone will be heard on the Headset.

1. Just press the multi-function button down once to answer the call. Pressing the button again will hang-up and terminate the call.
2. If you wish to answer a call on the cellular phone, just press **YES** and the call is automatically transferred to the phone. Pressing the multi-function button transfers the call on the Headset.
3. To terminate the call, press the multi-function button again.

d. **MAKING A CALL with the Headset on**

✦ **Normal dialing**

1. Enter the contact number and press **OK**. Sound is automatically transferred to the Headset.
2. Press the multi-function button to hang-up and terminate the call.

✦ **Voice dialing**

Refer to step g and h for the procedure when activating and recording for voice dialing.

1. Press the multi-function button once to activate the voice dialing. Sound is automatically transferred to the Headset.
2. A beep will then be heard on the Headset prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
4. Press the button again to terminate the call.

e. **AUDIO TRANSFER**

Audio Transfer can be done by pressing the multi-function button or accessing the cell phone's menu during ongoing calls.

f. **SETTING THE VOLUME**

The Headset has a digital volume control which can be accessed through the *multi-function button*. Volume setting can be done during calls only.

1. Switch the multi-function button sideways in a clockwise direction to increase the volume.
2. Switch it counterclockwise to decrease the volume.
3. Continuous sideward switching of the multi-function button (*clockwise or counterclockwise*) can rapidly increase or decrease the volume. *If the volume set is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.*

g. **ACTIVATING THE VOICE DIALING**

Use your phone when recording for the voice dialing. Before voice dialing, you must first turn on the name dialing function and record your voice. To turn voice dialing on:

1. On the Applications window (flip open mode), tap *Phone*.
2. Tap *Edit* then tap *Preferences*. A list of features will appear.
3. Tap *Voice Control* then tap the box aligned to *Voice dialing* to check and activate the voice dialing feature. Tap the box aligned to *Play caller name* so that the name will be played back to you.
4. Tap **Done** on the on screen button when finished.
5. On the Preferences mode, tap **Done** again.
6. Tap  to exit and return to the Applications mode.

h. **RECORDING FOR VOICE DIALING**

The voice dialing feature is only applicable to contacts saved to phone memory.

1. On the Applications window (flip open mode), tap *Contacts*.
2. Tap the contact where you want to add a voice dialing feature. Tap **Edit**. Scroll to **Edit Contact**. Tap  on the on-screen buttons.
3. Tap **Record**. *Speak after tone* will be displayed on the screen.
4. Record your voice. To check if your recording is of good quality, tap **Play**. If not, tap **Record** again. Press **Done** when finished.
5. Tap  to make another record and repeat the steps above. To return to the Applications window, tap  button.

Note: Noisy environment may affect voice recognition. Record your voice in a quiet environment.

USING WITH SONY ERICSSON T610

a. ACTIVATING THE BLUE TOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Go the Menu Key by pressing the joystick. Scroll to *Connectivity*, **SELECT**. Select *Bluetooth*, **SELECT**. *Turn On*, **SELECT**.
2. Continue pressing  to exit.

b. PAIRING TO THE CELLULAR PHONE

1. Bring the cellular phone at about 20 cm from the Headset.
2. Detach the Headset from the holster/base.
3. Turn off the Headset.
4. From the OFF state, press the multi-function button for 10 seconds until you hear a distinctive three-tone sound and the Bluetooth indicator LED changes from blinking blue to alternately blinking red and blue. This indicates that the unit is now ready for pairing.
5. Go the Menu Key by pressing the joystick. Scroll to *Connectivity*, **SELECT**. Select *Bluetooth*, **SELECT**.
6. Scroll to *My devices*, **SELECT**. *New device*, **ADD**. The phone is now searching for pairable devices to be added. Select the device you want to pair with your cell phone. Press **SELECT**.
7. Enter "0000" as the passkey then press **OK**. If the pairing is successful, the alternating red/blue lights will stop.
8. Continue pressing  to exit the menu key.

The unit is now ready to link calls from the phone directly to the Headset. An icon, will appear during the standby mode indicating that the Headset is linked with the phone.

c. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, a ring tone will be heard on the Headset.

1. Just press the multi-function button down once to answer the call. Pressing the button again will hang-up and terminate the call.
2. If you wish to answer a call on the cellular phone, just press **YES** and the call is automatically transferred to the phone. Pressing the multi-function button transfers the call on the Headset.
3. To terminate the call, press the multi-function button again.

d. MAKING A CALL with the Headset on

Normal dialing

1. Enter the contact number and press **CALL** button. Audio is automatically transferred to the Headset.
2. Press the multi-function button to hang-up and terminate the call.

Voice dialing

Refer to step h and i for the procedure when activating and recording for voice dialing.

1. Press the multi-function button once to activate the voice dialing.
2. A beep will then be heard on the Headset prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
4. Press the multi-function button again to terminate the call.

Redialing

Press quickly the multi-function button twice to redial the last number.

e. AUDIO TRANSFER

Audio Transfer can be done by pressing the multi-function button or accessing the cell phone's menu during ongoing calls.

f. REJECTING A CALL

Press the multi-function button twice to reject the incoming call.

g. SETTING THE VOLUME

The Headset has a digital volume control which can be accessed through the *multi-function button*. Volume setting can be done during calls only.

1. Switch the multi-function button sideways in a clockwise direction to increase the volume.
2. Switch it counterclockwise to decrease the volume.

3. Continuous sideward switching of the multi-function button (*clockwise or counterclockwise*) can rapidly increase or decrease the volume. *If the volume set is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.*

h. ACTIVATING THE VOICE DIALING

Use your phone when recording for the voice dialing. Before voice dialing, you must first turn on the name dialing function and record your voice. To turn voice dialing on and record number types:

1. Go to the Menu Key by pressing the joystick. Scroll to *Settings*, **SELECT**. *Voice control*, **SELECT**. *Voice dialing*, **SELECT**.
2. Choose *On*, **SELECT**.
3. Continue pressing  to exit.

i. RECORDING FOR VOICE DIALING

1. Go to the *Menu Key* by pressing the joystick. Scroll to *Settings* and press **SELECT**. Choose *Voice control*, **SELECT** then go to *Voice dialing*, **SELECT**. *Edit names*, **SELECT**. *New voice*, **ADD**.
2. Find a contact then press **SELECT**.
3. Follow the instructions that are displayed. Voice is automatically saved on the phone. An icon will appear next to a contact name which has a voice command.
4. Continue pressing  to exit.

Note: Noisy environment may affect voice recognition. Record your voice in a quiet environment.

USING WITH SONY ERICSSON T628

a. ACTIVATING THE BLUE TOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Go the Menu Key by pressing the joystick. Scroll to *Connectivity*, **SELECT**. Select *Bluetooth*, **SELECT**. *Turn On*, **SELECT**.
2. Continue pressing  to exit.

b. SETTING TO LOW POWER MODE

1. Press the *Menu key*. Scroll to *Connectivity*, **SELECT**. *Bluetooth*, **SELECT**.
2. Scroll to *Handsfree*, **SELECT**. Choose *Car handsfree*, **SELECT**.
3. Choose *Power Save*, **SELECT**.
4. Continue pressing  to exit.

c. PAIRING TO THE CELLULAR PHONE

1. Bring the cellular phone at about 20 cm from the Headset.
2. Detach the Headset from the holster/base.
3. Turn off the Headset.
4. From the OFF state, press the multi-function button for 10 seconds until you hear a distinctive three-tone sound and the Bluetooth indicator LED changes from blinking blue to alternately blinking red and blue. This indicates that the unit is now ready for pairing.
5. Go the Menu Key by pressing the joystick. Scroll to *Connectivity*, **SELECT**. Select *Bluetooth*, **SELECT**.
6. Scroll to *My devices*, **SELECT**. *New device*, **ADD**. The phone is now searching for pairable devices to be added. Select the device you want to pair with your cell phone. Press **SELECT**.
7. Enter "0000" as the passkey then press **OK**. If the pairing is successful, the alternating red/blue lights will stop.
8. Continue pressing  to exit the menu key.

The unit is now ready to link calls from the phone directly to the Headset. An icon, will appear during the standby mode indicating that the Headset is linked with the phone.

d. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, a ring tone will be heard on the Headset.

1. Just press the multi-function button down once to answer the call. Pressing the button again will hang-up and terminate the call.
2. If you wish to answer a call on the cellular phone, just press **YES** and the call is automatically transferred to the phone. Pressing the multi-function button transfers the call on the Headset.
3. To terminate the call, press the multi-function button again.

e. **MAKING A CALL with the Headset on**

Normal dialing

1. Enter the contact number and press **CALL** button. Audio is automatically transferred to the Headset.
2. Press the multi-function button to hang-up and terminate the call.

Voice dialing

Refer to step h and i for the procedure when activating and recording for voice dialing.

1. Press the multi-function button once to activate the voice dialing.
2. A beep will then be heard on the Headset prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
4. Press the multi-function button again to terminate the call.

f. **AUDIO TRANSFER**

Audio Transfer can be done by pressing the multi-function button or accessing the cell phone's menu during ongoing calls.

g. **SETTING THE VOLUME**

The Headset has a digital volume control which can be accessed through the *multi-function button*. Volume setting can be done during calls only.

1. Switch the multi-function button sideways in a clockwise direction to increase the volume.
2. Switch it counterclockwise to decrease the volume.
3. Continuous sideward switching of the multi-function button (*clockwise or counterclockwise*) can rapidly increase or decrease the volume. *If the volume set is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.*

h. **ACTIVATING THE VOICE DIALING**

Use your phone when recording for the voice dialing. Before voice dialing, you must first turn on the name dialing function and record your voice. To turn voice dialing on and record number types:

1. Go to the Menu Key by pressing the joystick. Scroll to *Settings*, **SELECT**. *Voice control*, **SELECT**. *Voice dialing*, **SELECT**.
2. Choose *On*, **SELECT**.
3. Continue pressing to exit.

i. **RECORDING FOR VOICE DIALING**

1. Go to the *Menu Key* by pressing the joystick. Scroll to *Settings* and press **SELECT**. Choose *Voice control*, **SELECT** then go to *Voice dialing*, **SELECT**. *Edit names*, **SELECT**. *New voice*, **ADD**.
2. Find a contact then press **SELECT**.
3. Follow the instructions that are displayed. Voice is automatically saved on the phone. An icon will appear next to a contact name which has a voice command.
4. Continue pressing to exit.

Note: Noisy environment may affect voice recognition. Record your voice in a quiet environment.

USING WITH SONY ERICSSON Z600

a. **ACTIVATING THE BLUETOOTH**

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Press the *Menu key* Scroll to *Connectivity*, **SELECT**. *Bluetooth*, **SELECT**. Choose *Turn ON*, **SELECT**.
2. Continue pressing to exit.

QUICK ACCESS:

- a. Press *More key*.
- b. Scroll to *Turn On Blue tooth*, **SELECT**.
- c. Continue pressing to exit.

b. SETTING TO LOW POWER MODE

1. Press the *Menu* key (⊖). Scroll to *Connectivity*, **SELECT**. *Bluetooth*, **SELECT**.
2. Scroll to *Handsfree*, **SELECT**. Choose *Car handsfree*, **SELECT**.
3. Choose *Power Save*, **SELECT**.
4. Continue pressing (↩), to exit

c. PAIRING TO THE CELLULAR PHONE

1. Bring the cellular phone at about 20 cm from the Headset.
2. Detach the Headset from the holster/base.
3. Turn off the Headset.
4. From the OFF state, press the multi-function button for 10 seconds until you hear a distinctive three-tone sound and the Bluetooth indicator LED changes from blinking blue to alternately blinking red and blue. This indicates that the unit is now ready for pairing.
5. Press the *Menu* key (⊖). Scroll to *Connectivity*, **SELECT**. *Bluetooth*, **SELECT**.
6. Scroll to *My Devices*, **SELECT**. *New Device*, **ADD**. The phone will then search the device to be added. After the device is found, press **SELECT**.
7. Enter "0000" as the passkey and press **OK**. If the pairing is successful, the alternating red/blue lights will stop. If the pairing is unsuccessful, the steps above may be repeated.
8. Continue pressing (↩) to exit the menu key.

The unit is now ready to link calls from the phone directly to the Headset. An icon, will appear during the standby mode indicating that the Headset is linked with the phone.

d. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, a ring tone will be heard on the Headset.

1. Just press the multi-function button down once to answer the call. Pressing the button again will hang-up and terminate the call.
2. If you wish to answer a call on the cellular phone, just press **YES** and the call is automatically transferred to the phone. To transfer the call to the Headset, press the *Menu* key. Scroll to *Transfer Sound* and press **SELECT**. Choose the paired device and press **SELECT**.
3. To terminate the call, press the multi-function button again.

e. MAKING A CALL with the Headset on

☛ **Normal dialing**

1. Enter the contact number and send. Audio can be heard on the Headset simultaneously.
2. Press the multi-function button to hang-up and terminate the call.

☛ **Voice dialing**

Refer to step h and i for the procedure when activating and recording for voice dialing.

1. Press the multi-function button once to activate the voice dialing.
2. A beep will then be heard on the Headset prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
4. Press the button again to terminate the call.

f. AUDIO TRANSFER

Audio Transfer can be done by pressing the multi-function button or accessing the cell phone's menu during ongoing calls.

g. SETTING THE VOLUME

The Headset has a digital volume control which can be accessed through the *multi-function button*. Volume setting can be done during calls only.

1. Switch the multi-function button sideways in a clockwise direction to increase the volume.
2. Switch it counterclockwise to decrease the volume.
3. Continuous sideward switching of the multi-function button (*clockwise or counterclockwise*) can rapidly increase or decrease the volume. *If the volume set is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.*

Note: It is also possible to use the volume keys of the cellular phone to set the volume

h. ACTIVATING THE VOICE DIALING

Use your phone when recording for the voice dialing. Before voice dialing, you must first turn on the voice dialing function and record your voice. To turn voice dialing on:

1. Press the *Menu* key (⊖) Scroll to *Settings*, **SELECT**. Scroll to *Voice control*, **SELECT**. *Voice dialing*, **SELECT**.
2. Choose *On*, **SELECT**.

3. Continue pressing  to exit.

i. RECORDING FOR VOICE DIALING

1. Press the *Menu* key . Scroll to *Settings* and press **SELECT**. Choose *Voice controls*, **SELECT** then go to *Voice dialing*, **SELECT**. Scroll to *Edit name*, **SELECT**. *New voice*, **ADD**.
2. Select a contact and press **SELECT**.
3. Follow the instructions in the display. An icon will appear opposite a contact's name which has a voice command.
4. Continue pressing  to exit.

Note: Record your voice command in a quiet place so that only your voice will be recorded on the phone.

USING WITH MOTOROLA V600

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Press *Menu* key featured as  or press on the center of the *5-Way Navigation Key* featured as  to access *Menu*. Scroll to *Settings*, **SELECT**. Choose *Connection*, **SELECT**. *Bluetooth Link*, **SELECT**.
2. Continue pressing **Back**, to exit.

b. PAIRING TO THE CELLULAR PHONE

1. Bring the cellular phone at about 20 cm from the Headset.
2. Detach the Headset from the holster/base.
3. Turn off the Headset.
4. From the OFF state, press the multi-function button for 10 seconds until you hear a distinctive three-tone sound and the Bluetooth indicator LED changes from blinking blue to alternately blinking red and blue. This indicates that the unit is now ready for pairing.
5. **Press the multi-function button once again for a short time, to access Headset Pairing Mode.**
6. Press *Menu* key  or press on the center of the *5-Way Navigation key*  to access *Menu*. Scroll to *Settings*, **SELECT**. Choose *Connection*, **SELECT**. *Bluetooth Link*, **SELECT**.
7. Choose *Handsfree*, **SELECT**. [*Look for devices*], **SELECT**. The phone will then scan the device to be added.
8. On the scan results, choose the device you want to pair with your cell phone, **SELECT**. A question "*Bond with ... (device name)?*" appears. Press **YES**.
9. Enter Bluetooth passkey "0000" then press ok. If pairing is successful, a remark "*Connected to... (device name)*" appears. The phone exits automatically.

The unit is now ready to link calls from the phone directly to the headset. If pairing is unsuccessful, the steps above may be repeated.

c. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, a ring tone will be heard on the Headset.

1. Just press down the multi-function button once to answer the call.
2. To terminate the call, press down the multi-function button once.

c. MAKING A CALL with the Headset on

 **Normal dialing**

1. Enter the contact number and press **SEND/ANS key**. Audio can be heard on the Headset.
2. To terminate or hang-up the call, press down the multi-function button once.

 **Voice dialing**

Refer to step h and i for the procedure when activating and recording for voice dialing.

1. Press the multi-function button once to activate the voice dialing.
2. A beep will then be heard on the headset prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
4. Press the hang-up button to terminate the call.

Redialing

Press the multi-function button twice quickly to redial the last number.

e. **AUDIO TRANSFER**

Audio Transfer can be done by pressing the multi-function button once or accessing the cell phone's menu during ongoing calls.

f. **REJECTING A CALL**

Press the multi-function button twice quickly to reject an incoming call.

g. **SETTING THE VOLUME**

The Headset has a digital volume control which can be accessed through the *multi-function button*. Volume setting can be done during calls only.

1. Switch the multi-function button sideways in a clockwise direction to increase the volume.
2. Switch it counterclockwise to decrease the volume.
3. Continuous sideward switching of the multi-function button (*clockwise or counterclockwise*) can rapidly increase or decrease the volume. *If the volume set is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.*

Note: It is also possible to use the volume keys of the cellular phone to set the volume

h. **ACTIVATING THE VOICE DIALING**

Use your phone when recording for the voice dialing. Before voice dialing, you must first turn on the *Voice Dial* function of your phone and record your voice. To turn voice dialing on:

1. Go to *Menu* by pressing the *feature* . Scroll to *Settings*, **SELECT**. Scroll to *Headset*, **SELECT**.
2. Choose *Voice Dial*, **CHANGE**. Choose *ON*, **SELECT**.
3. Continue pressing **Back** to exit.

i. **RECORDING FOR VOICE DIALING**

Note: (Make sure the number is stored in Phone memory).

1. Press *Menu key* featured as  or press on the center button of the *5-Way Navigation Key* featured as  to access *Menu*. Scroll to *Phonebook*, **SELECT**.
2. Choose a contact that you want to make a *voice dial* to, then press . Choose *Edit*, then press **SELECT**.
3. On the *Entry Details*, choose "...MORE..." and press **SELECT**.
4. On the *Add New*, choose *Phone Number*, **SELECT**. This is highlighted, "No.:_____". Press **CHANGE**. Enter the corresponding contact number and then press **Ok**. (Do not press **DONE** yet).
5. Using the 5-way Navigation key , scroll down to "*Voice Name*" then press **RECORD**. Follow instructions on the screen.
Note: If recording is successful, an icon will appear next to *Voice Name*.
6. Press **DONE**.

Notes: 1. The recorded voice will be played back to you.

2. In the listed names of your *Phonebook*, an icon appears next to a name which has a "Voice Name". This indicates that you can contact this person via "voice dial".

USING WITH NOKIA 6310/6310i

a. **ACTIVATING THE BLUETOOTH**

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Press the *Menu* button. Scroll to *Bluetooth*, **SELECT**. Press **SELECT** again.
2. Choose *On*, **SELECT**. An icon will appear on the upper left corner.
3. Press *Back* then *Exit* to exit the *Menu*.

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Blue tooth	Select	On	Select
6310	10	1	1	1
6310i	11	1	1	1

b. PAIRING TO THE CELLULAR PHONE

1. Bring the cellular phone at about 20 cm from the Headset.
2. Detach the Headset from the holster/base.
3. Turn off the Headset.
4. From the OFF state, press the multi-function button for 10 seconds until you hear a distinctive three-tone sound and the Bluetooth indicator LED changes from blinking blue to alternately blinking red and blue. This indicates that the unit is now ready for pairing.
5. Press the *Menu* button. Scroll to *Bluetooth*, **SELECT**. Scroll to *Search for audio accessories*, **SELECT**. The phone is now scanning for Bluetooth devices. **SELECT** the headset. The phone will initiate connection with the Headset.

QUICK ACCESS (for step 5):

Press *Menu* followed by the sequence of numbers below.

	Blue tooth	Search for audio accessories
6310	10	2
6310i	11	2

6. Enter "0000" as the passcode then press **OK**. The phone is now connected with the Headset.
7. Press *Back* then *Exit* to exit the *Menu*.

The Headset is paired and ready to use. An icon will be displayed during the standby mode indicating that the Headset is linked with the phone.

Note: Once paired, the Headset and the phone have simultaneous connection with each other (keypad tones can be heard on the Headset every time the keypad is pressed).

c. AUTO ACCEPT MODE

The auto accept mode allows the Bluetooth function to be turned on automatically whenever the user starts sending information such as answering or making a call via the Bluetooth Headset.

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Press the *Menu*  button. Scroll to *Connect*, **OPTIONS**. A list of options will be displayed. Choose *OPEN* then press **SELECT**. Choose *Bluetooth*, **OPTIONS**. Choose *OPEN*, and press **SELECT**.
2. *Bluetooth* *OFF* will be displayed. Press **OPTIONS**. *Change*, **SELECT**. Choose *On*, then press **OK**.
3. Continue pressing *Exit* key to exit the *Menu*.

b. PAIRING TO THE CELLULAR PHONE

1. Bring the cellular phone at about 20 cm from the Headset.
2. Detach the Headset from the holster/base.
3. Turn off the Headset.
4. From the OFF state, press the multi-function button for 10 seconds until you hear a distinctive three-tone sound and the Bluetooth indicator LED changes from blinking blue to alternately blinking red and blue. This indicates that the unit is now ready for pairing.
5. Press the *Menu*  button. Scroll to *Connect*, **OPTIONS**. Choose *Open*, press **SELECT**. *Bluetooth*, **OPTIONS**. *Open*, **SELECT**. Press  button, "Paired devices" will be displayed as title. Press **OPTIONS**. *New paired device*, **SELECT**. "Searching for devices..." will be displayed. Select the headset and press **SELECT**. "Waiting for..." and "Passcode for..." will be displayed simultaneously.
6. Enter "0000" as the passcode then press **OK**. "Waiting for..." and "Pairing with...complete" will be displayed simultaneously.
7. Continue pressing *Exit*.

The Headset is paired and ready to use. An icon will be displayed during the standby mode indicating that the Headset is linked with the phone.

Note: Once paired, press the multi-function button once to establish simultaneous connection between the Headset and the phone. (Keypad tones can be heard on the Headset every time the keypad is pressed). If ever the paired device was turned off, once it is turned on again, there is no need to undergo the same pairing procedure. "Passcode for..." will be displayed. Enter the passcode then press **OK**. "Accept connection request from..." press **YES** to reconnect.

c. AUTO ACCEPT MODE

The auto accept mode allows the Bluetooth function to be turned on automatically whenever the user starts sending information such as answering or making a call via the Bluetooth Headset.

1. Press the *Menu*  button. Scroll to *Connect*, **OPTIONS**. Choose *Open*, press **SELECT**. *Bluetooth*, **OPTIONS**. *Open*, **SELECT**. Press  button. "Paired devices" will be displayed as title.
2. Select the Headset and press **OPTIONS**. Scroll to *Set as authorised*, **SELECT**. "Connections will take place without confirmation. Continue?" press **YES**.
3. Continue pressing *Exit* key to exit the *Menu*. An icon will then appear on the upper right corner.

d. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, a ring tone will be heard on the Headset as well as on the phone.

1. Press the multi-function button down once to answer the call.
2. End the call by pressing the button again.

Note: Cell phone buttons can also be used to answer a call but audio is still transferred to the Headset.

e. **MAKING A CALL with the Headset on**

✦ **Normal dialing**

1. Enter the contact number and send. As you dial, audio and the keypad tones can be heard on the Headset simultaneously but not on the phone.
2. Press the multi-function button to hang-up and terminate the call.

Note: If the call is terminated using the cellular phone, a tone will be heard on the Headset indicating that the call has been terminated.

✦ **Voice dialing**

Refer to step i for the procedure when recording for voice dialing.

1. Press the multi-function button once to activate the voice dialing.
2. A beep will then be heard on the headset prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cellular phone does not recognize the name spoken, the steps above may be repeated.
4. Press the button again to terminate the call.

✦ **Redialing**

Press quickly the multi-function button twice to redial the last number.

f. **AUDIO TRANSFER**

Audio Transfer can be done by pressing the multi-function button or accessing the cell phone's menu during ongoing calls.

g. **REJECTING A CALL**

Press the multi-function button twice to reject the incoming call.

h. **SETTING THE VOLUME**

The Headset has a digital volume control which can be accessed through the *multi-function button*. Volume setting can be done during calls only.

1. Switch the multi-function button sideways in a clockwise direction to increase the volume.
2. Switch it counterclockwise to decrease the volume.
Note: As you press the button, the volume level is simultaneously displayed on the cellular phone.
3. Continuous sideward switching of the multi-function button (*clockwise or counterclockwise*) can rapidly increase or decrease the volume. *If the volume set is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.*

Note: It is also possible to use the volume keys of the cellular phone to set the volume

i. **RECORDING FOR VOICE DIALING**

Use your phone when recording voice dialing.

1. Press the *Menu*  button. Select *Contacts*, **OPTIONS**. *Open*, **SELECT**.
2. Find a contact name. Press  button. (The contact number is the one being displayed.)
3. Press *Options* button. Scroll to *Add Voice tag*, **SELECT**. Instructions appear. Your voice is automatically saved on the phone after being played back to you.
4. In case you wish to change your recorded voice, press *Options* button. *Voice tag*, **SELECT**. *Change*, **SELECT**. Instructions appear.
5. Continue pressing *Exit* key to exit the *Menu*.

Note: Record your voice command in a quiet place so that only your voice will be recorded on the phone.

USING WITH NOKIA 6230

a. **ACTIVATING THE BLUETOOTH**

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Press **Menu** and select **Settings, Connectivity** and **Bluetooth**.
2. Select **Blue tooth on** and **On**.
3. Continue pressing **Back** then finally **Exit**.

b. PAIRING TO THE CELLULAR PHONE

1. Bring the cellular phone at about 20 cm from the Headset.
2. Detach the Headset from the holster/base.
3. Turn off the Headset.
4. From the OFF state, press the multi-function button for 10 seconds until you hear a distinctive three-tone sound and the Bluetooth indicator LED changes from blinking blue to alternately blinking red and blue. This indicates that the unit is now ready for pairing.
5. Press **Menu** and select **Settings, Connectivity** and **Bluetooth**.
6. Select **Search for audio enhancements**.
The phone now searches for Bluetooth devices to be paired. When the search is complete, it displays the names of the devices found.
7. Choose the device you want to pair with your phone, **Select**.
8. Enter "0000" as the passcode then press **ok**.
9. Continue pressing **Back** then finally **Exit**.

The Headset is paired and ready to use. An icon will be displayed during the standby mode indicating that the Headset is linked with the phone.

Notes:

1. *Once paired, keypad tones can be heard on the Headset.*
2. *Pairing is done only once. When the Headset is turned off, then turned back on, it is automatically connected to the cell phone. That is, when you already activate the phone's Auto Accept Mode. Kindly refer to "section c. AUTO ACCEPT MODE".*
3. *When the paired device was deleted, it can still be viewed as an active device and not yet completely disconnected. Thus, there will still be simultaneous connection between your Headset and cell phone even after deleting was done. But when you delete the pairing and at the same time, turn off your Headset, you automatically disconnect the bond.*
4. *If ever the paired device was deleted and Headset was turned off, once it is turned back on, there is no need to undergo the same pairing procedure. "Pair with..." will be displayed. Press **Accept** button, enter "0000" passcode then press **ok**.*

c. AUTO ACCEPT MODE

The auto accept mode allows the Bluetooth function to be turned on automatically whenever the user starts sending information such as answering or making a call via the Bluetooth Headset.

1. Press **Menu** and select **Settings, Connectivity** and **Bluetooth**.
2. Select **Paired devices**. Choose *the name of your device* and press **Options**.
3. Select **Request conn. authorisation**.
4. Select **No**.
5. Continue pressing **Back** then finally **Exit**.

d. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, same ring tone will be heard simultaneously on the Headset as well as on the phone.

1. Press once on the multi-function button to answer the call.
2. Pressing once again on the multi-function button will terminate the call.

Note: Cell phone buttons can also be used to answer a call but audio will still be heard on the Headset.

e. MAKING A CALL with the Headset on

☛ **Normal dialing**

1. Enter the contact number and press **CALL** key. As you dial, audio and the keypad tones can be heard on the Headset, not on the phone.
2. Press the multi-function button to terminate the call.

☛ **Voice dialing**

Refer to step i for the procedure when recording for voice dialing.

1. Press once on the multi-function button to activate the voice dialing.
2. A beep will then be heard on the Headset prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cellular phone does not recognize the name spoken, the steps above may be repeated.
4. Press the multi-function button again to terminate the call.

☛ **Redialing**

Press twice quickly the multi-function button to redial the last number.

i. **AUDIO TRANSFER**

Audio Transfer can be done by pressing the multi-function button or accessing the cell phone's menu during ongoing calls.

j. **REJECTING A CALL**

Press the multi-function button twice quickly to reject the incoming call.

k. **SETTING THE VOLUME**

The Headset has a digital volume control which can be accessed through the *multi-function button*. Volume setting can be done during calls only.

1. Switch the multi-function button sideways in a clockwise direction to increase the volume.
2. Switch it counterclockwise to decrease the volume.
Note: As you switch the button, the volume level is simultaneously displayed on the cellular phone.
3. Continuous sideward switching of the multi-function button (*clockwise or counterclockwise*) can rapidly increase or decrease the volume. *If the volume set is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.*

Note: It is also possible to use the volume keys of the cellular phone to set the volume.

i. **RECORDING FOR VOICE DIALING**

Use your phone when recording voice dialing.

1. Press **Menu** and select **Contacts** and **Search**.
2. Choose the name which you want to make a voice dial then press **Details**.
3. Press **Options** and select **Add voice tag**. *Follow the instructions that are displayed.*
Your voice will then be saved on the phone after it is played back to you.
4. Continue pressing **Back** then finally **Exit**.

Note: Record your voice command in a quiet place so that only your voice will be recorded on the phone.

USING WITH NOKIA 6650

a. **ACTIVATING THE BLUETOOTH**

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Press **Menu**. Scroll to **Connectivity**, **SELECT**. **Bluetooth**, **SELECT**.
2. **BluetoothOff**, **SELECT**. Choose **On**, **SELECT**. An icon will appear on the display on the standby mode.
3. Continue pressing **Back** button to exit the **Menu**.

QUICK ACCESS:

Press **Menu** followed by the sequence of numbers below.

	Connectivity	Bluetooth	BluetoothOff	On	Select
6650	11	1	1	1	1

b. **PAIRING TO THE CELLULAR PHONE**

1. Bring the cellular phone at about 20 cm from the Headset.
2. Detach the Headset from the holster/base.
3. Turn off the Headset.
4. From the OFF state, press the multi-function button for 10 seconds until you hear a distinctive three-tone sound and the Bluetooth indicator LED changes from blinking blue to alternately blinking red and blue. This indicates that the unit is now ready for pairing.
5. Press **Menu**. Scroll to **Connectivity**, **SELECT**. **Bluetooth**, **SELECT** and scroll to **Search for audio enhancements**, **SELECT**. The phone is now searching for Bluetooth devices. **SELECT** the Headset. The phone will initiate connection with the Headset.

QUICK ACCESS (for step 5):

Press **Menu** followed by the sequence of numbers below.

	Connectivity	Blue tooth	Search for audio accessories
6650	11	1	2

6. Enter "0000" as the passcode then press **OK**. The phone is now connected with the Headset.
7. Continue pressing the *Back* button to exit the *Menu*.

The Headset is paired and ready to use. An icon will be displayed during the standby mode indicating that the Headset is linked with the phone.

Note: Once paired, the Headset and the phone have simultaneous connection with each other. (Keypad tones can be heard on the Headset every time the keypad is pressed).

c. AUTO ACCEPT MODE

The auto accept mode allows the Bluetooth function to be turned on automatically whenever the user starts sending information such as answering or making a call via the Bluetooth Headset.

1. Press *Menu*. Scroll to *Connectivity*, **SELECT**. *Bluetooth*, **SELECT**. Scroll to *View paired devices*, **SELECT**.
2. Select the headset and press **OPTIONS**. Scroll to *Request conn. authorisation*, **SELECT**. *No*, **SELECT**.
3. Continue pressing *Back* button to exit the *Menu*.

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Connectivity	Bluetooth	View paired devices
6650	11	1	4

d. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, a ring tone will be heard on the Headset as well as on the phone.

1. Press the multi-function button down once to answer the call.
2. End the call by pressing the button again.

Note: Cell phone buttons can also be used to answer a call but audio is still transferred to the Headset.

e. MAKING A CALL with the Headset on

Normal dialing

1. Enter the contact number and send. As you dial, audio and the keypad tones can be heard on the Headset simultaneously but not on the phone.
2. Press the multi-function button to hang-up and terminate the call.

Note: If the call is terminated using the cellular phone, a tone will be heard on the Headset indicating that the call has been terminated.

Voice dialing

Refer to step i for the procedure when recording for voice dialing.

1. Press the multi-function button once to activate the voice dialing.
2. A tone will then be heard on the Headset prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cellular phone does not recognize the name spoken, the steps above may be repeated.
4. Press the button again to terminate the call.

Redialing

Press quickly the multi-function button twice to redial the last number.

f. AUDIO TRANSFER

Audio Transfer can be done by pressing the multi-function button or accessing the cell phone's menu during ongoing calls.

g. REJECTING A CALL

Press the multi-function button twice to reject the incoming call.

h. SETTING THE VOLUME

The Headset has a digital volume control which can be accessed through the *multi-function button*. Volume setting can be done during calls only.

1. Switch the multi-function button sideways in a clockwise direction to increase the volume.
2. Switch it counterclockwise to decrease the volume.
Note: As you press the button, the volume level is simultaneously displayed on the cellular phone.
3. Continuous sideward switching of the multi-function button (*clockwise or counterclockwise*)

can rapidly increase or decrease the volume. *If the volume set is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.*

Note: It is also possible to use the volume keys of the cellular phone to set the volume by pressing the multi-function button first.

i. **RECORDING FOR VOICE DIALING**

Use your phone when recording voice dialing.

1. Press the *Names* button. *Search*, **SELECT**.
2. Find a contact. Press *Details* button.
3. Press *Options* button. *Add voice tag*, **SELECT**. Follow instructions on the cell phone. Your voice is automatically saved on the phone after being played back to you.
4. In case you wish to change your recorded voice, press *Options* button. *Voice tag*, **SELECT**. *Change*, **SELECT**. Follow instructions on the cell phone.
5. Continue pressing *Back* button to exit.

Note: Record your voice command in a quiet place so that only your voice will be recorded on the phone.

USING WITH NOKIA 6600

a. **ACTIVATING THE BLUETOOTH**

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Press the *Menu*  key. Using the joystick, scroll to *Connect.*, press  to select. A list of options will be displayed. Choose *Bluetooth*, press  to select.
2. *Bluetooth* **OFF** will be displayed. Press  to switch Bluetooth *On*.
3. Continue pressing *Exit* key to exit the *Menu*.

b. **PAIRING TO THE CELLULAR PHONE**

1. Bring the cellular phone at about 20 cm from the Headset.
2. Detach the Headset from the holster/base.
3. Turn off the Headset.
4. From the OFF state, press the multi-function button for 10 seconds until you hear a distinctive three-tone sound and the Bluetooth indicator LED changes from blinking blue to alternately blinking red and blue. This indicates that the unit is now ready for pairing.
5. Press the *Menu*  button. Using the joystick, scroll to *Connect.*, press  to select. A list of options will be displayed. Note: If the call is terminated using the cellular phone, a tone will be heard on the Headset indicating that the call has been terminated.

☛ **Voice dialing**

Refer to step i for the procedure when recording for voice dialing.

1. Press the multi-function button once to activate the voice dialing.
2. A beep will then be heard on the Headset prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cellular phone does not recognize the name spoken, the steps above may be repeated.
4. Press the button again to terminate the call.

☛ **Redialing**

Press quickly the multi-function button twice to redial the last number.

f. **AUDIO TRANSFER**

Audio Transfer can be done by pressing the multi-function button or accessing the cell phone's menu during ongoing calls.

g. **REJECTING A CALL**

Press the multi-function button twice to reject the incoming call.

h. **SETTING THE VOLUME**

The Headset has a digital volume control which can be accessed through the *multi-function button*. Volume setting can be done during calls only.

1. Switch the multi-function button sideways in a clockwise direction to increase the volume.
2. Switch it counterclockwise to decrease the volume.
Note: As you press the button, the volume level is simultaneously displayed on the cellular phone.
3. Continuous sideward switching of the multi-function button (*clockwise or counterclockwise*) can rapidly increase or decrease the volume. *If the volume set is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.*

Note: It is also possible to use the volume keys of the cellular phone to set the volume

i. **RECORDING FOR VOICE DIALING**

Use your phone when recording voice dialing.

1. Press the *Menu*  button. Scroll to *Contacts* and press .
2. Find a contact name. Press  button. (The contact number is the one being displayed.)
3. Press *Options* button. Scroll to *Add Voice tag*, **SELECT**. Instructions appear. Your voice is automatically saved on the phone after being played back to you.
4. In case you wish to change your recorded voice, press *Options* button. *Voice tag*, **SELECT**. *Change*, **SELECT**. Instructions appear.
5. Continue pressing *Exit* key to exit the *Menu*.

Note: Record your voice command in a quiet place so that only your voice will be recorded on the phone.

USING WITH PANASONIC X70

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Go to Menu by pressing the center button of the 5-way navigation key featured as .
2. Scroll to *Organizer*, **Select**. Scroll to *Connect*, **Select**. *Bluetooth*, **Select**.
3. *On/Off*, **Select**. Choose *On*, **Select**.

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Organizer	Connect	Bluetooth	On
X70	8	9	1	Select

4. Continue pressing  to exit.

b. PAIRING TO THE CELLULAR PHONE

1. Bring the cellular phone at about 20 cm from the Headset.
2. Detach the Headset from the holster/base.
3. Turn off the Headset.
4. From the OFF state, press the multi-function button for 10seconds until you hear a distinctive three-tone sound and the Bluetooth indicator LED changes from blinking blue to alternately blinking red and blue. This indicates that the unit is now ready for pairing.
5. Go to *Menu* by pressing center button of  key. Scroll to *Organizer*, **Select**. Scroll to *Connect*, **Select**. *Bluetooth*, **Select**.
6. Choose *Discover & Pair*, **Select**.

QUICK ACCESS (for steps 5 and 6):

Press *Menu* followed by the sequence of numbers below.

	Organizer	Connect	Bluetooth	Discover & Pair
X70	8	9	1	2

The phone is now searching for pairable devices to be added.

7. Select the device you want to pair with your cell phone, then press **Pair**.
8. Enter "0000" as the passkey then press **Ok**. If the pairing is successful, the alternating red/blue lights will stop.
9. Continue pressing  to exit.

The unit is now ready to link calls from the phone directly to the Headset. An icon appears during the standby mode indicating that the Headset is linked with the phone. If pairing is unsuccessful, the steps above may be repeated.

c. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, two dissimilar ring tones will be heard on the phone and on the Headset.

1. When answering is done on the Headset (*that is, pressing the multi-function button once*), the ongoing call can be heard from it.
2. When answering is done on the phone, ongoing call can be heard from the phone (*not on the Headset*). But if you wish to hear and transfer the call to the Headset, just press once on the Headset's multi-function button.
3. To terminate the call, press down on the multi-function button once again.

d. MAKING A CALL with the Headset on

Normal dialing

1. Using your phone, enter the contact number and press **SEND** key. Audio is heard on the phone and no immediate audio heard on the Headset yet. You have to press once on the multi-function button to transfer the audio to the Headset.
2. To terminate the call, press down the multifunction button once.

Voice dialing

Refer to step h and i for the procedure when activating and recording for voice dialing.

1. Press the multi-function button once to activate the voice dialing.
2. *Beep* will then be heard on the Headset prompting the user to say the name of the person to call.

3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
4. To terminate the call, press down the multifunction button once.

Redialing

Press the multi-function button twice quickly to redial the last number.

e. AUDIO TRANSFER

Audio Transfer can be done by pressing down the multi-function button once or accessing the cell phone's Menu during ongoing calls.

f. REJECTING A CALL

Press the multi-function button twice quickly to reject an incoming call.

g. SETTING THE VOLUME

The Headset has a digital volume control which can be accessed through the *multi-function button*. Volume setting can be done during calls only.

1. Switch the multi-function button sideways in a clockwise direction to increase the volume.
2. Switch it counterclockwise to decrease the volume.
3. Continuous sideward switching of the multi-function button (*clockwise or counterclockwise*) can rapidly increase or decrease the volume. *If the volume set is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.*

Note: It is also possible to use the volume keys of the cellular phone to set the volume.

h. ACTIVATING THE VOICE DIALING

Use your phone when recording for voice dialing. Before voice dialing, you must first turn on the *Voice Dial* function and record your voice. To turn voice dial on:

1. Go to Menu by pressing  key. Scroll to *Contacts List*, **Select**.
2. On the Contacts List, choose *Settings*, **Select**.
3. Choose *Voice Dial*, **Select**. Choose *On* and press **Ok**.
4. Continue pressing  to exit.

i. RECORDING FOR VOICE DIALING

1. Go to Menu by pressing  key. Scroll to *Contacts List*, **Select**.
2. On the Contacts List, scroll down to *Voice Dial*, **Select**.
3. Press *Menu*. Choose *Add*, **Select**.
4. On the contact names listed, choose the one you want to make a voice dial.
5. After choosing a contact, press again center button of  key. Choose *Recall*, **Select**. A statement "*Please Record Your Voice!*" appears. Press **Ok**.
6. Follow the instructions on screen. Voice is then saved on the phone. Under Voice Dial list, the name which already has a voice command appears.
7. Continue pressing  to exit.

Note: Noisy environment may affect voice recognition. Record your voice in a quiet environment.

USING WITH Qtek 2020

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your Pocket PC Phone and other Bluetooth devices.

1. Tap . Scroll down to *Settings*. Tap *Connections* tab. Tap *Bluetooth*.
2. Select *On* and tap **ok**.
3. Tap **V** to exit.

b. PAIRING TO THE CELLULAR PHONE

1. Bring your PC phone at about 20 cm from the Headset.
2. Detach the Headset from the holster/base.
3. Turn off the Headset.
4. From the OFF state, press the multi-function button for 10seconds until you hear a distinctive three-tone sound and the Bluetooth indicator LED changes from blinking blue to alternately blinking red and blue. This indicates that the headset is now ready for pairing.

5. **Press the multi-function button once again for a short time, to access headset pairing mode.**
6. Tap . Scroll down to *Settings*. Tap *Connections* tab. Tap *Bluetooth*.
7. Tap *Bonded Devices* tab. Tap *New*.
Your device now searches for Bluetooth devices and displays them in the list.
8. Tap the name of the device that you want to bond with your PC phone, and then tap *Next*.
9. Enter "0000" as the Device PIN and then tap *Next*.
10. Tap *Finish*. (Note: In *Name*, you may or may not edit the name of your bonded device).
11. For the question, "*This Bluetooth device supports headset profile, would you like to set it as your Blue tooth headset?*", tap *Yes* tab.
12. Tap **ok**, and then **V** to exit.

The unit is now ready to link calls from the PC phone directly to the Headset. An icon appears during the standby mode indicating that the Headset is linked with the PC phone. If pairing is unsuccessful, the steps above may be repeated.

c. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, two dissimilar ring tones will be heard on the phone and on the Headset.

1. When answering is done on the Headset (*that is, pressing the multi-function button once*), the ongoing call can be heard from it.
2. When answering is done on the phone, ongoing call can be heard from the phone (*not on the Headset*). But if you wish to hear and transfer the call to the Headset, just press once on the Headset's multi-function button.
3. To terminate the call, press down the multi-function button once.

d. MAKING A CALL with the Headset on

 **Normal dialing**

With your Pocket PC Phone, you can make a call using different methods. Please refer to your PC Phone's User Guide.

The most direct method is by using the Phone keypad.

1. Press  button to bring up the dialer screen.
2. Tap the number on the keypad, and then tap  key.

Note: Ongoing call will be heard on the phone and not immediately on the Headset. You have to press once on the Headset's multi-function button to transfer the sound to the Headset.

3. To terminate the call, press down the multifunction button once.

e. AUDIO TRANSFER

Audio Transfer can be done by pressing down the multi-function button once or accessing on the phone's Bluetooth Headset  icon.

f. SETTING THE VOLUME

The Headset has a digital volume control which can be accessed through the *multi-function button*. Volume setting can be done during calls only.

1. Switch the multi-function button sideways in a clockwise direction to increase the volume.
2. Switch it counterclockwise to decrease the volume.
3. Continuous sideward switching of the multi-function button (*clockwise or counterclockwise*) can rapidly increase or decrease the volume.

Note: If the volume set is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.

USING WITH SHARP GX32

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Press  to display Main Menu.
2. Highlight **Settings**, and then press  to select.
3. Succeedingly, highlight and select **Connectivity, Bluetooth, Bluetooth On/Off** and **On**.

4. Continue pressing **Back** then finally **Exit**.
The Bluetooth setting is activated. Bluetooth icon  is displayed on standby mode screen.

b. PAIRING TO THE CELLULAR PHONE

1. Bring the cellular phone at about 20 cm from the Headset.
2. Detach the Headset from the holster/base.
3. Turn off the Headset.
4. From the OFF state, press the multi-function button for 10 seconds until you hear a distinctive three-tone sound and the Bluetooth indicator LED changes from steady blue to alternate blinking of red and blue. This indicates that the unit is now ready for pairing.
5. Press  to display Main Menu.
6. Highlight **Settings**, and then press  to select.
7. Succeedingly, highlight and select **Connectivity, Bluetooth** and **Search for Devices**.
Note: The phone displays three categories: "Headset", "Car kit", and "All". If you select "All", the phone lists devices from all categories.

The phone now searches for Bluetooth devices to be paired. When the search is complete, devices found in the selected category are listed.

8. Highlight the desired device for pairing, and then press  to select.
9. Enter "0000" as the passcode then press **ok**.
10. Continue pressing **Back then finally Exit**.

The Headset is paired and ready to use.

c. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, tone will be heard on the Headset.

1. When answering is done on the Headset (*that is, pressing the multi-function button once*), the ongoing call can be heard from it.
2. When answering is done on the phone, ongoing call can still be heard on the Headset.
3. To terminate the call, press down the multi-function button once.

d. MAKING A CALL with the Headset on

 **Normal dialing**

1. Using your phone, enter the contact number and press *Send* key. Audio can be heard on the Headset. *Note: If at times, when audio is heard on the phone, press once on the multi-function button to transfer audio to the Headset.*
2. To terminate the call, press down the multifunction button once.

 **Redialing**

Press the multi-function button twice quickly to redial the last number.

e. AUDIO TRANSFER

Audio Transfer can be done by pressing down the multi-function button once or accessing the cell phone's Menu during ongoing calls.

f. REJECTING A CALL

Press the multi-function button twice quickly to reject an incoming call.

g. SETTING THE VOLUME

The Headset has a digital volume control which can be accessed through the *multi-function button*. Volume setting can be done during calls only.

1. Switch the multi-function button sideways in a clockwise direction to increase the volume.
2. Switch it counterclockwise to decrease the volume.
3. Continuous sideward switching of the multi-function button (*clockwise or counterclockwise*) can rapidly increase or decrease the volume. *If the volume set is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.*

USING WITH SIEMENS S55

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Press the *Menu* button. Scroll to *Setup*, **SELECT**. Choose *Connectivity*, **SELECT**.
2. Scroll to *Bluetooth*, **Change**. The phone is now connecting with the Bluetooth device. An icon will appear on the upper left corner when connected. **OPTIONS** button may also be pressed. Choose *Activate BT*, then **SELECT**.
3. Continue pressing the *On/Off/End Key* to exit the *Menu*.

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below. Doing this sequence once will either activate or deactivate the Bluetooth depending on your current setting.

Setup	Connectivity	Bluetooth
9	6	4

b. PAIRING TO THE CELLULAR PHONE

1. Bring the cellular phone at about 20 cm from the Headset.
2. Detach the Headset from the holster/base.
3. Turn off the Headset.
4. From the OFF state, press the multi-function button for 10 seconds until you hear a distinctive three-tone sound and the Bluetooth indicator LED changes from blinking blue to alternately blinking red and blue. This indicates that the unit is now ready for pairing.
5. Press the *Menu* button. Scroll to *Setup*, **SELECT**. Choose *Connectivity*, **SELECT**. Scroll to *Bluetooth*, **OPTIONS**. Scroll to *Search for...*, press **ACCESS** button. The phone is now searching for devices. When the search is complete, *Devices disc.* is displayed as title. If the device you are looking for is not on the list, repeat the procedure by pressing the **OPTIONS** and **REPEAT** buttons. Then press **SELECT** to add the device. The phone will initiate connection with the headset.
6. *Pls, enter BT pin for...*, **OK**. Enter "0000" as the BT pin then press **OK**. *Handsfree trusted* will be displayed afterwards indicating that the pairing is completed.
7. Continue pressing the *On/Off/End Key* to exit the *Menu*.

The Headset is paired and ready to use. An icon will be displayed during the standby mode indicating that the Headset is linked with the phone.

c. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, a ring tone will be heard from the phone.

1. Press the multi-function button down once to answer the call.
2. End the call by pressing the button again.

Note: Cell phone buttons can also be used to answer a call. To transfer the call to the Headset, press the multi-function button once.

d. MAKING A CALL with the Headset on

Normal dialing

1. Enter the contact number and send. To transfer audio on the Headset, press the multi-function button once.
2. Press the multi-function button again to hang-up and terminate the call.

Note: If the call is terminated using the cellular phone, no tone will be heard on the Headset indicating that the call has been terminated.

Voice dialing

Refer to step h for the procedure when recording for voice dialing.

1. Press the multi-function button once to activate the voice dialing.
2. A beep will then be heard on the Headset prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cellular phone does not recognize the name spoken, the steps above may be repeated.
4. Press the button again to terminate the call.

 **Redialing**

Pressing quickly the multi-function button twice triggers the cell phone to redial the last number. Call is automatically transferred to the Headset.

e. AUDIO TRANSFER

Audio Transfer can be done by pressing the multi-function button or accessing the cell phone's menu during ongoing calls.

f. REJECTING THE CALL

Press the multi-function button twice to reject the incoming call.

g. SETTING THE VOLUME

The Headset has a digital volume control which can be accessed through the *multi-function button*. Volume setting can be done during calls only.

1. Switch the multi-function button sideways in a clockwise direction to increase the volume.
2. Switch it counterclockwise to decrease the volume.
Note: It is also possible to use the volume keys of the cellular phone to set the volume. As you press it, the volume level is simultaneously displayed on the cellular phone.
3. Continuous sideward switching of the multi-function button (*clockwise or counterclockwise*) can rapidly increase or decrease the volume. *If the volume set is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.*

h. RECORDING FOR VOICE DIALING

Use your phone when recording for voice dialing. Record your contact names and numbers in the "Address book" (phone memory).

1. From standby mode, open the *Address book* by pressing the arrow down key  (If Phone book is the one displayed, press  key to switch to Address book.)
2. Select a contact name. **OPTIONS.**
3. Scroll to *Voice dialing*, **SELECT**. *New*, **SELECT**. *Recording for: contact name*, **YES**. Follow the instructions. Your voice is automatically saved on the phone after being played back to you.
4. In case you wish to change your recorded voice, press *Options* button. *Voice tags*, **SELECT**. *Change*, **SELECT**. Instructions appear.
5. Press *On/Off/End key* to exit

Note: Noisy environment may affect voice recognition. Record your voice in a quiet place.

Audio Gateway Phone Service Status:

This is possible only for cell phones paired on handsfree mode. This allows the headset to monitor and indicate the phone's audio gateway service status through its indicator lights.

1. One (1) blink per second on the headset indicates that the service is available.
2. One (1) blink every 2 seconds on the headset indicates that the phone's audio gateway service is unavailable.
